

Garbage Disposal

Charlotte Pass Village participates in the recycling of garbage. To this end, garbage will be separated into three categories:

- a) General putrescible garbage
- b) Bottles and cans
- c) Paper and cardboard

A container or containers will be placed on the perimeter of the turning circle for the depositing of the bagged garbage.

- Two bins will be placed in the kitchen area for category a) garbage.
- One bin will be provided behind the bar for category b) recycling.
- Category c) recycling will be bundled and placed in the ski room prior to depositing in the CPV container.

CPV requests that all garbage be double-bagged.

NOTE: Please **do not** leave bagged garbage outside the Lodge as the crows will open the bags and scatter the contents.
